WESTSTACKS

Technology that moves *business forward.*

BRAND IDENTITY / CREATED BY ICON MEDIA

BRAND PRINCIPLE	Premium minimalism. Bold, purposeful technology. Built to move business forward.

STRATEGY • VISUAL IDENTITY • DIGITAL EXPERIENCE

01 / FOUNDATION

A technology partner built for what’s next.

Weststacks combines dependable engineering with thoughtful design to help organisations work smarter, serve customers better and grow.

Mission

Build useful, reliable and well-designed technology that solves real business problems, from essential business systems to custom digital products.

Vision

Become a globally recognised technology company known for enterprise software, practical AI innovation and long-term client partnerships.

Brand promise

OUR PROMISE	**Technology tailored to the realities of each business, delivered with care, clarity and a long-term mindset.**

Core values

QUALITY BY DESIGN
We value considered design, dependable engineering and details that make products easier to use.

PARTNERSHIP
We stay focused on the client's long-term outcomes, not just the initial delivery.

PRACTICAL INNOVATION
We apply AI and new technology where they create meaningful business value.

INDUSTRY UNDERSTANDING
We learn how each organisation works before proposing what to build.

Personality

Premium & sophisticated
Confident, refined and deliberate.

Corporate & trustworthy
Clear, accountable and reliable.

Minimal & modern
Simple, precise and purposeful.

Future-focused
Curious, innovative and commercially aware.

Tone of voice

WE ARE
Clear, assured, intelligent, helpful.

WE ARE NOT
Overhyped, jargon-heavy, loud or vague.

AUDIENCE	**Institutions, hospitals, D2C brands, startups, SMEs and established enterprises.**

THE FOUNDATION

Premium technology, made accessible. Built on quality, partnership and practical innovation.

02 / AUDIENCES

Different industries. Purpose-built solutions.

Weststacks serves organisations of different sizes, with a focus on matching the technology to the industry's real workflows.

EDUCATION	**Colleges, universities and education groups** College ERP, admissions, student records, attendance, fees, examinations, faculty and parent portals.
HEALTHCARE	**Hospitals, clinics and diagnostic groups** Patient CRM, appointment workflows, follow-ups, enquiry management, patient engagement and integrations.
D2C & COMMERCE	**Consumer brands and online retailers** E-commerce sites, mobile apps, custom storefronts, loyalty, retention and order/inventory integrations.
STARTUPS & SAAS	**Founders and software companies** SaaS MVPs, web and mobile apps, product engineering, APIs and integrations.
SMES & ENTERPRISE	**Growing and established organisations** Custom ERP/CRM, internal tools, workflow automation, dashboards, legacy modernisation and integrations.

Client-size spectrum

STARTUPS
Build, validate and launch.

SMALL BUSINESSES
Modernise and grow.

MID-SIZED BUSINESSES
Connect systems and scale.

ENTERPRISES
Support complex operations.

MARKET STRATEGY	**India first, global from day one.**

THE AUDIENCE

Industry-specific solutions for education, healthcare, commerce, startups and enterprise.

03 / CAPABILITIES

Technology for the way business works.

Weststacks' core offering spans business-critical systems, customer experiences and custom software.

01	**ERP SOLUTIONS** Education and enterprise systems that connect operations, data and workflows.
02	**CRM SOLUTIONS** Lead, customer and patient relationship systems that support better engagement.
03	**WEBSITES & DIGITAL COMMERCE** Corporate websites, e-commerce experiences and custom web platforms.
04	**MOBILE APPLICATIONS** Consumer, business, student and patient-facing applications.
05	**SAAS & PRODUCT DEVELOPMENT** MVPs, subscription software, dashboards and scalable digital products.
06	**CUSTOM SOFTWARE & INTEGRATIONS** Purpose-built applications, APIs, internal tools and connected systems.
07	**AI & WORKFLOW AUTOMATION** Practical AI integrations and automation designed around business needs.

Commercial model

PROJECT DELIVERY
Custom software, websites, apps and implementations.

LONG-TERM PARTNERSHIP
Ongoing enterprise contracts and technology support.

SYSTEMS & AUTOMATION
ERP, CRM, integrations and AI-enabled workflows.

SERVICE PRINCIPLE **Solve the business problem first. Choose the technology second.**

THE OFFER

ERP. CRM. Websites. Apps. Custom software. AI automation.

04 / VISUAL IDENTITY

Quiet confidence. Precise details.

Creative direction: premium minimalism with bold, futuristic details. Every element should feel intentional, spacious and modern.

Official colour palette

MIDNIGHT NAVY #0B1220	Website backgrounds, footers and presentations
WHITE / ICE #F1F5F9	Main text on dark backgrounds and light sections
ELECTRIC BLUE #3B82F6	Buttons, links and key highlights
SLATE #475569	Secondary text, borders and subtle details

Typography system

PRIMARY TYPE

Clean, modern sans-serif. Uppercase for confident statements and navigation labels.

EDITORIAL ACCENT

Elegant italic serif for selected phrases, hero headlines and campaign statements.

Use the serif selectively. Keep paragraphs, navigation, software interfaces and proposals highly legible.

Logo rules

WHITE LOGO

Primary use on Midnight Navy and other dark backgrounds.

BLUE LOGO

Use selectively where the mark remains clear and contrast is strong.

PRESERVE THE MARK

Do not stretch, redraw, bevel or alter the supplied geometric W shape.

CLEAR SPACE

Keep generous space around the logo. Do not crowd it with copy or decoration.

DESIGN RULE — **Restraint is a feature. Use Electric Blue for emphasis, not as a substitute for hierarchy.**

THE IDENTITY

Quiet confidence. Precise details. Restraint over decoration.

05 / DIGITAL EXPERIENCE

Designed to turn interest into enquiries.

The website's primary job is to convert the right visitors into qualified business conversations.

Recommended site structure

HOME
Value proposition, proof points and a clear consultation CTA.

ABOUT
Company story, expertise, delivery approach and team.

ERP & CRM
Dedicated solution pages tailored to business use cases.

WEBSITES & APPS
Corporate websites, commerce and mobile product development.

SAAS & CUSTOM SOFTWARE
Product engineering, integrations and tailored platforms.

AI AUTOMATION
Practical automation use cases and implementation approach.

INDUSTRIES
Education, healthcare, D2C, SaaS and enterprise.

WORK & CASE STUDIES
Real projects, prototypes and verified outcomes.

CONTACT
A simple enquiry path and consultation booking.

Conversion essentials

CLEAR CTA
Invite visitors to book a consultation or discuss a project.

INDUSTRY RELEVANCE
Show examples and language that match the buyer's world.

PROOF
Use real demos, case studies and verifiable capabilities.

LOW FRICTION
Keep forms concise and explain what happens next.

Digital foundations

Secure the domain and social handles; set up professional email; implement technical SEO and analytics; track enquiry submissions and qualified leads; publish only genuine client results.

SUCCESS METRIC	Qualified enquiries and sales conversations, not traffic alone.

THE EXPERIENCE

Turn the right visitors into qualified business conversations.

06 / GO-TO-MARKET

Build trust. Start conversations. Earn the work.

Client acquisition should focus on decision-makers with real needs and a clear path to a technology project.

Acquisition channels

LINKEDIN OUTREACH
Build targeted relationships with founders, directors and institutional decision-makers.

DIRECT INSTITUTIONAL OUTREACH
Approach colleges and hospitals with relevant ERP and CRM use cases.

PERSONALISED EMAIL
Send useful, specific messages tied to a prospect's business context.

SEO & GOOGLE SEARCH
Build visibility for high-intent service and industry searches.

PAID ADVERTISING
Test focused campaigns with clear conversion tracking.

PARTNERSHIPS & REFERRALS
Build relationships with consultants and complementary providers.

CONTENT & THOUGHT LEADERSHIP
Demonstrate expertise through insights, product demos and practical guidance.

Credibility assets

LIVE PRODUCT DEMOS
Show how a solution works rather than relying on claims.

COMPANY PRESENTATION
Explain the offer, process, industries and delivery standards.

PORTFOLIO & CASE STUDIES
Document real projects, challenges and verified outcomes.

DEMO PROJECTS & PROTOTYPES
Create representative examples when client work is limited.

OUTREACH PRINCIPLE **Relevant, researched and respectful. Lead with the client's problem, not a generic service list.**

THE APPROACH

Relevant outreach. Credible demonstrations. Long-term relationships.

07 / EXECUTION

Turn the identity into a working business.

Prioritise the assets that help Weststacks earn trust, start sales conversations and deliver consistently.

01	**FINISH THE BRAND KIT** Approve production logo files, transparent exports, lockups, typography and usage rules.
02	**BUILD THE WEBSITE** Create industry-specific service pages, proof points and a clear enquiry journey.
03	**PREPARE THE SALES TOOLKIT** Build the company profile, pitch deck, proposals and outreach templates.
04	**CREATE DEMONSTRATIONS** Develop representative ERP, CRM, web, SaaS and AI prototypes.
05	**LAUNCH ACQUISITION** Activate outreach, SEO, paid campaigns, partnerships and analytics.
06	**MEASURE WHAT MATTERS** Track qualified enquiries, consultations, proposals, pipeline and conversion.

Brand guardrails

BE CONSISTENT
Use the approved colours and preserve logo geometry.

BE CREDIBLE
Never claim unverified results, certifications or partnerships.

BE DISTINCTIVE
Keep layouts minimal and intentional; avoid excessive glow and gradients.

BE READY
Confirm domain availability, trademark position and final font specifications.

OPERATING PRINCIPLE **Build trust through clarity, proof and consistent delivery.**

THE PRIORITY

Build the brand kit, website, sales toolkit, demos and acquisition system.

WESTSTACKS

Technology that moves *business forward.*
